COMPANY PROFILE | 2026

WHO WE ARE

Purpose-built for delivery.

Taurus Speciality Solutions (Pty) Ltd operates at the intersection of general building, project delivery and specialised life-safety solutions.

We work with developers, property owners, commerci
clients and industrial operators who value responsive
management, disciplined execution and accountability
throughout the project lifecycle.

Our approach brings practical construction knowledge to
with an emphasis on safety, quality and well-managed de
from early assessment to handover and ongoing support.

OUR PRIORITIES

QUALITY
Workmanship and clear acceptance standards

SAFETY
Planned work and risk-aware execution

INTEGRITY
Clear communication and commercial transparency

RELIABILITY
Responsive leadership and programme discipline

CIDB 6GB PE
General Building | Potentially Emerging

NHBRC
Registered home builder (as supplied by management)

CORE CAPABILITIES

Built for real-world construction.

A practical offering for residential estates, commercial facilities, structural works and specialist project support.

CONSTRUCTION AND CIVIL SCOPE

01 GENERAL BUILDING

Residential, commercial and associated building works.

02 CONCRETE & STRUCTURAL

Foundations, reinforced concrete and structural coordination.

03 RESIDENTIAL ESTATES

Upmarket housing, alterations and estate-facing works.

04 INDUSTRIAL PROJECTS

Industrial facilities, upgrades and supporting civil works.

05 PROJECT MANAGEMENT

Estimating, procurement, programme and subcontractor control.

06 MAINTENANCE & UPGRADES

Refurbishment, remedial works and lifecycle improvements.

SUPPORTING CAPABILITIES

A broader view of asset protection.

Construction, industrial infrastructure and fire protection are complementary parts of a well-managed facility.

FIRE PROTECTION & FIREFIGHTING EQUIPMENT

FIRE DETECTION & ALARMS

Detection, alarm systems and related life-safety integration support.

SPRINKLER & SUPPRESSION

Sprinkler systems, water networks, hydrants and hose reels.

PORTABLE FIRE EXTINGUISHERS

Portable firefighting equipment, supply, inspection and servicing.

TESTING & MAINTENANCE

System checks, planned servicing and remedial fire-protection work.

RIGHT SCOPE. RIGHT PEOPLE. RIGHT APPROVALS.

Fire-specific services and statutory sign-off are confirmed for each project based on its scope, applicable standards and the qualifications of the delivery team or appointed specialists.

SELECTED PROJECT IMAGERY

Residential work, from vision to finish.

High-end residential imagery supplied by management, highlighting external finishes, landscaping, architecture and site presentation.

CONTEMPORARY RESIDENTIAL / EXTERNAL COMPLETION

Residential architectural detailing
Balconies, facade and external works

Outdoor living and finishing
Poolside decking and external finishes

Management-supplied project imagery. Confirm Taurus / leadership contractual role, client approval and project naming before publication.

SITE EXPERIENCE

Visible progress. Practical workmanship.

Progress photography provides a more authentic record of site operations than stock imagery.

SITE PREPARATION

Excavation, earthworks and access

MASONRY

Setting-out and wall construction

REINFORCED CONCRETE

Slab preparation and associated works

ALTERATIONS & EXTENSIONS

Brickwork and timber roof structure

WHY THIS MATTERS TO A DEVELOPER

These photographs show groundworks, masonry, concrete works, roofing and completion. Project roles and references will be added once verified.

Project names, dates, values and the company role are pending confirmation. Photos shown for capability discussion only.

HOW WE WORK

From planning to handover.

Project delivery must be practical, coordinated and accountable - particularly for estate, commercial and industrial environments.

FIVE-STAGE DELIVERY MODEL

01 DISCOVER
Clarify scope, site access, design intent and project risks.

02 PLAN
Review drawings, costings, programme, procurement and statutory needs.

03 MOBILISE
Coordinate resources, subcontractors, induction and work fronts.

04 EXECUTE
Control work quality, progress, safety and change instructions.

05 CLOSE OUT
Resolve snags, complete records and hand over to the client.

SAFETY, QUALITY AND GOVERNANCE

- SITE-SPECIFIC RISK ASSESSMENTS
- DOCUMENTED QUALITY CONTROL
- CLEAR HANDOVER RECORDS

REGIONAL COVERAGE

Two regions. One Taurus.

Construction, general building and fire-protection support for property developers, housing estates, commercial clients and industrial sites across KwaZulu-Natal and Gauteng.

KWAZULU-NATAL
